Trademarks The brother logo is a registered trademark of Brother Industries, Ltd. Apple, the Apple Logo, and Macintosh are trademarks, registered in the United States and other countries, and TrueType is a trademark of Apple computer, Inc. This information is vital to the service technician to maintain the high printing quality and performance of the printer. This manual consists of the following chapters. Shenzhen Buji Nan Ling Factory Gold Garden Ind., Nan Ling Village, Buji, Rong Gang, Shenzhen, CHINA This product complies with FDA radiation performance standards, 21 CFR Subchapter J. The label shown below is attached in countries where required.CAUTION In case of any trouble with the laser unit, replace the laser unit itself. To prevent direct exposure to the laser beam, do not try to open the enclosure of the laser unit. CAUTION Indicates cautions that must be observed to service the printer properly or prevent damage to the printer. The printers also support autoemulation switching between HP, Brother BRScript 3 and Epson or HP, BRScript 3 and IBM. If you want to set the printer emulation, you can do it using the Remote Printer Console Program. You can print on both sides of paper by using this function. If shortgrained paper is being used, it might be the cause of paper jams. Paper output Media type Face down Face up Plain paper Thick paper Recycled paper Transparency Label Envelope Card 112. Therefore, the machine can only print within the shaded area when you use a PCL driver. Actual print speed varies depending on the media type or paper size as shown in the tables below;.

DESCRIPTIONS The descriptions below show how to understand the meanings of the numbers printed on the labels or bag of the printer and printer parts January February March April. Printed on the bar code label attached on the toner cartridge CARTRIDGE M 3 9 A 0 0 0 1 9 9 A PRODUCTION INFO. Printer Drum Unit Assembly with Toner Cartridge included CDROM AC power cord Quick Setup Guide Fig. 21 NOTE Components may vary depending on the country. Remove the protective part. 3 Rock it from side to side several times to distribute the toner evenly inside the assembly. Check that the paper is flat in the tray and below the maximum paper mark. Fig. You can use the BRAdmin Professional software or a web browser to change this password.Click the Next

button. Close the Chooser. 7 The setup is now complete. Printing on envelopes from the manual feed tray For HL5130 and HL5140 The printer has a straight paper path from the manual feed tray to the back of the printer. Use this paper feed and output method when you want to print envelopes. NOTE A NO PAPER status is shown by the control panel LEDs until you put a sheet of paper in the manual feed tray. Fig.217 4 Open the manual feed tray. Hold the envelope in this position until the printer automatically feeds it in for a short distance, and then let go of the envelope. When you have finished printing your envelopes, close the back output tray to reset the two blue tabs back to their original position. Printing on transparencies from the manual feed tray For HL5130 and HL5140 NOTE When the back output tray is open, the printer has a straight paper path from the manual feed tray to the back output tray. Place the paper with the side that is going to be printed on the blank side face up. Follow the instructions on the computer screen. Paper orientation for printing on both sides of the paper The printer prints the second page first. If you print 10 pages on 5 sheets of paper, it will print page 2 then page 1 on the first sheet of paper.

Printer status Sleep mode Toner The power switch is off or the printer is in Sleep mode. Pressing the Go button wakes up the printer from Sleep mode to Warming up mode. Purchase a new toner cartridge and have it ready for when Toner Empty is indicated. Drum Paper The Toner LED alternates turning on for 2 seconds and off for 3 seconds alternately. Jam Clear Cover Open Drum Close the jam clear cover of the printer. Paper Face up Open HL5150D and HL5170DN When you use the duplex printing function Close the faceup output tray of the printer. The default timeout is 5 minutes and it is automatically adjusted to the most suitable timeout setting depending on the frequency of your printer use Intelligent Sleep Mode. The printer will print a test page. If you are using Brother's Windows PCL printer driver, open the printer folder, then choose and right click the Brother's Windows PCL printer driver. The Print Test Page button is in the General Tab of the "Property". While the CPU is driven with a clock frequency of 66.66 MHz in the user logic block, it itself runs at 133.33 MHz, which is. The transmission speed is 480Mbps or 12Mbps.. The main PCB has one slot and the capacity of DIMM can be from 16MB to 128MB.C103 VDD3 VDD3 4.7k TP58 TP67 EESCL TP59 TP68 EESDA TEST BR24C04F Aurora Fig. 317 The EEPROM is BR24C64 type of twowire method with a 8192 x 8bit configuration. Main frame R Taptite, cup S M3x6 FG plate Taptite, bind B M4x12 Drum spring R. Compositon Manufacture Origin. Leadfree solder does not contain the toxic substance lead, however, inhalation of the fumes may adversely affect the health of workers. The silver contained in lead free solder is also a toxic substance, though it is not as toxic as lead, and, therefore, a localized ventilation system and gloves are required for leadfree solder soldering operations, as required for those with conventional solder. The printer should be used only in a clean, dustfree environment with adequate ventilation. We recommend that you replace the drum unit with a new one before there is a noticeable deterioration in the print quality. These parts would affect the product quality greatly if they lost their function even if they do not appear to be damaged or there is no change in their appearance. The periodical replacement parts listed below should be replaced at the service center

referring to the service life. Printer AC cord Fig.

515 2 Close the front cover and pull out the paper tray. Front cover Paper Tray Fig.516. Hook Outer Chute Fig.518 510. Printer AC cord Fig.521 2 Close the front cover and pull out the paper tray. CAUTION While drum unit and scanner window cleaning basically can be implemented by the end user, the electrical terminals inside the printer and on the drum unit should be cleaned by a service technician. Return the tab to the home position before reinstall the drum unit assembly. Home position Fig. 525. No paper Load paper into the printer. HL5130 Press the go button.If it is empty, put a new stack of paper in the No Paper Manual Feed paper tray. For HL5130, put paper in the paper tray and No Paper Multi Purpose Tray then press the Go button. Pull the jammed paper up and out of the printer. If you cannot remove the drum unit assembly easily at this time, do not use extra force. Instead, pull the edge of the jammed paper from the paper tray. Fig. Pull the jammed paper out of the fuser unit. If the paper jam can be cleared, go to Step 7. Fig. 66 NOTE If you have to pull the paper toward the back of the printer, the fuser may get dirty with toner powder and it may scatter on the next printouts. Close the back output tray. Push the lock lever down and take the toner cartridge out of the drum unit assembly. Take out the jammed paper if there is any inside the drum unit. Fig. When a paper jam occurs inside the printer, you have to find the location of the paper jam first, remove the jammed paper and then take the appropriate countermeasure referring to the table below;. Even if the same problem occurs again, follow the procedures in the table below. Both high temperature and humidity will cause paper to curl.

2 If the printer is used infrequently, the paper may have sat for too long in the paper tray. Turn over the stack of paper in the paper tray. User Check 1 Check that the printer cable is not damaged or broken. Check also that the cable is connected to the correct interface connectors of both the printer and PC. Doubleclick the file "Deins USB.exe" in the USB directory of the CDRM. No AC power supplied Possible cause Step Check Result Remedy Supply voltage. Main motor failure Possible cause Step Check Result. Highvoltage Check the connections of the. Even if the same image defect appears, the following procedures should be followed in the event of specific image defects. High temperature and high humidity conditions can increase the amount of background shading. 3 Clean the corona wire with the wire cleaner. 4 Try installing a new toner cartridge or drum unit. Drum unit Are the drum shaft and drum. Install a new drum unit. Ground Possible cause Step Check Result Remedy contacts Corona failure Is the corona wire dirty. Clean the corona wire with the wire cleaner. Install a new drum unit. 2 Check the paper used meets the recommended paper specifications. 3 Clean the printer interior and the corona wire in the drum unit. Install a new toner cartridge. 3 Check the printer's environment. High temperature and high humidity conditions can cause this problem. Refer to Step 1 in the. Place the printing samples in front of the drum unit, and find the exact position of the image defect. Drum unit Position of smudge on the drum 94mm interval. Refer to Step 1 in the. Corona failure Is the corona wire dirty 1 Clean the corona wire. A rough surfaced paper may cause the problem. 2 The toner cartridge may be damaged. Install a new toner cartridge. 3 The drum unit may be damaged, or may be nearly at the end of life. Install a new drum unit. The printer prints unexpectedly or it prints garbage. User Check 1 Check if the printer cable is not too long.

The best combination of settings below will vary depending on your document. Likewise, a router can be set up to pass only certain protocols, so be sure that the desired protocol can be passed through to the print server. Select the test mode you want to use following the steps below; 1 Turn off the power switch of the printer and check that the front cover is closed. Select the service mode you want to use according to the steps shown below; 1 Turn off the power switch of the printer and check that the front cover is closed. 2 Turn on the power switch while holding down the Job Cancel

button. The printer supports a factory inspection mode, continuous grid pattern print mode, 3 patterns print mode and NVRAM value dump mode. Front registration sensor Rear registration sensor Paper eject sensor Front cover sensor Fixing unit cover sensor Toner sensor After checking of all 5 sensors, Drum LED is lit if no unusual states are detected. Printing out the Print Settings 1 Press the Go switch three times. However, page 3 is added when BRNet is equipped. This tool also shows the printer information such as printer version or page counter for all models only when the printer is connected to a parallel port or USB. Extract the EXE file. Connect the USB cable to the printer. Open the front cover, and turn on the printer while holding down the Go button. Turn the printer ON while holding down the Go and Job Cancel buttons.
